Our Contract logistics & distribution management services include:

- **Warehousing services:** secure, climate-controlled facilities for all types of products.
- **Order fulfilment:** fast, accurate order processing and shipping solutions.
- **Supply chain management:** comprehensive supply chain visibility and optimisation.
- **Transportation management:** efficient transport solutions using multiple modes of delivery.
- **Inventory management:** Real-time inventory tracking for accurate stock levels and replenishment.
- **Reverse logistics:** returns and exchanges are efficiently handled to reduce waste and improve customer satisfaction.

WHY CHOOSE OUR CONTRACT LOGISTICS SERVICES?

Our contract logistics services cover every aspect of your supply chain, from procurement to warehousing, transportation, and last-mile delivery. We specialise in providing scalable, efficient, and customised logistics solutions to help your business thrive.

- **Experienced team:** a dedicated team of logistics experts ensuring seamless operations.
- **End-to-End support:** from inventory management to delivery, we handle it all.
- **Custom solutions:** tailored logistics management to meet your specific needs.
- **Cost optimisation:** reduce operational costs through efficient supply chain management.
- **Advanced technology:** real-time tracking, analytics, & inventory control systems.

Complete distribution management solutions

We ensure your products are delivered to the right place, at the right time, with optimal efficiency. We manage your entire distribution process to improve supply chain performance and, ultimately, customer satisfaction.

- **Nationwide coverage:** extensive network for regional, national, & international distribution.
- **Inventory control:** full visibility & control of stock levels and order fulfilment.
- **Seamless transportation:** from warehousing to last-mile delivery, we ensure timely & safe transportation.
- **Third-party logistics (3PL):** we offer 3rd party logistics services that integrate with your business processes.
- **Scalable solutions:** as your business grows, so do our logistics services.

Benefits of partnering with us for your contract logistics solutions

- **Cost efficiency:** streamline operations and reduce logistics costs. Through outsourcing your logistics to us, you will do away with the need for a huge capital outlay on vehicles, together with ongoing servicing and repair issues. And management hours will be reduced, alongside dealing with all the bureaucracy around driver training and emissions regulations...
- **Scalable services:** as your business grows, our logistics solutions scale with you.
- **Customer satisfaction:** ensure timely deliveries and a better customer experience.
- **Reduced risk:** focus on your core business while we handle your logistics operations. Making the decision to outsource your logistics functions can be tough. However, the volatility of transport costs, booming eCommerce, changing regulations and the constant progress with technology, do mean it's getting harder and more expensive to do it all in house.
- **Eco-friendly/ green logistics solutions:** we are committed to sustainable logistics practices, have a growing fleet of electric vehicles and a megawatt HGV charging hub on site.
- **Less stress!** we can take away the stress of running your own vehicles.

Why choose Welch Group?

Now in our fourth generation of family ownership, Welch Group is a friendly, experienced team of reliable logistics professionals.

You can expect consistent support and a creative approach to problem solving. From warehousing through transport to our new Net Zero services, the engine of our quality drive has always been the satisfaction of our customers. Consequently, we are proud to have grown some long and successful relationships over the 90 years we've been in business.

How much do contract logistics and distribution management services cost?

It's always best for us to understand what your specific requirements are before we feel comfortable declaring a price for our contract logistics services. From experience, every client is different and every project has unique characteristics that affect the overall cost.

Please reach out about your needs so that we can help you with accurate pricing.
