# Welch's Specialist Movements and Crane Hire

Our team of experts will support you through the whole project.

## One move made easy...

If you have a specialist or 'unique' move to make, from process, to crane hire, to transport vehicles, to packaging and paperwork, our team of experts are on hand to support you through the whole project.

When you partner with us you gain access to a wealth of expertise and a team who love what they do. There are very few teams of people across the UK who share our experience and talent for lifting and moving extraordinary cargo.

We have a deep understanding of the unique demands of lifting and transporting special loads, and can ensure every aspect of your shipment is handled with extreme care and precision.

From site survey and uninstallation, to lifting, moving and reinstalling, we can consult, manage and execute the whole project - that's why we pride ourselves on our motto: 'One move made easy!'

We can also arrange access to versatile lifts, cherry pickers and MEWPS.

### Out-of-the-ordinary movements are our every day!

From abnormal loads and road closures, to designated routing or the provision of standard and police escorts, our expert team can handle it all.

Insurance, and health and safety regulations are handled by our team too, with the provision of method statements, risk assessments and lifting plans.

### Our contract lift service

Because using a crane is a high-risk activity, it's paramount that our expert team is familiar with the responsibilities, duties and risks involved with every lift, on behalf of our customers.

If you're not confident about all the responsibilities of a CPA standard lift, we can arrange a CPA contract lift and take away all the considerable hassles associated with a crane lift.

# Heavy load transport

Whether your need is industrial, commercial or military we can provide you with an exceptional lifting and moving solution for the heaviest items.

We run a specialised fleet of loaders and crane trailers, with individual lifting capacity from 1 tonne to 11.5 tonnes, saving our customers the time and money of having to hire three separate pieces of equipment to load, move and then unload their freight.

Our highly versatile pieces of equipment are able to manoeuvre heavy and awkward objects into and out of tight or restricted spaces. With a reach of 17 metres on our newest, custom built, UK-unique crane trailer, there aren't many places we can't reach.

This includes STGO Cat 1 Class vehicles with a gross weight capacity of 50 tonnes.

As far as heavy load and fragile goods specialist transport is concerned, it's hard to find a more experienced, motivated team to help you with your move. Why not get in touch?
