

NEED A GOOD SERVICE?

WELCH'S, MORE THAN TRANSPORT

welchgroup.co.uk

Welch's Truck & Van Centre

Award-winning HGV and LGV repair and servicing in Cambridgeshire.

Reliable services and repairs for more than 90 years

Based in Cambridgeshire, and now in our fourth generation of family ownership, Welch Group has been supporting fleets of vehicles with reliable services and repairs for more than 90 years.

Now an award-winning Renault Franchised Service and EV approved Dealer, we are backed by the global support of the Renault brand, with the personal touch you would expect from your local garage.

welchgroup.co.uk

The engine of our quality drive has always been the satisfaction of our customers. Consequently, we are proud to have grown some long and successful relationships over the 90 years we've been in business.

OUR AWARD-WINNING TRUCK & VAN SERVICES

Repairs and maintenance

- We have the tools and experience to undertake servicing, maintenance and parts supply for all major truck and van makes, all under one roof.

PMIs and MOTs

- Keeping the correct maintenance records of your fleet is a legal requirement. We have the knowledge and expertise to ensure your vehicle is maintained as required by legislation.

Parts and accessories

- We stock a wide range of Renault approved, genuine parts. We also keep a comprehensive range of other OEM parts on our shelves as well.

Tail lift servicing, weight testing and LOLER examinations

- Often neglected as part of your vehicle maintenance, tail lift servicing and testing is essential to comply with LOLER.

We work with you to schedule your tail lift inspections alongside your vehicle maintenance to minimise fleet downtime.

Tachograph calibration and service

- Our expert team provides the full range of tachograph services and repair. Whether minor repairs, periodic and 2-year checks or resealing and calibration, we have the tools and knowledge to service and repair both digital and analogue tachographs.

Breakdown and recovery

- Dedicated roadside assistance is available for each of our customers, with free of charge courtesy vehicles and vehicle pick-up and delivery within the local area.

EV compliance

Our technicians are also experienced in EV servicing and repair, so if you have an electric vehicle in need of maintenance, contact our Duxford truck and van centre for support.

Truck and van breakdown services

We understand the industry and just how important it is to get things sorted as quickly as possible to keep fleet downtime to a minimum, especially when the downtime is unexpected.

We can offer roadside assistance 24 hours a day and are part of the Renault 24 network.

Our team will be with you within 60-90 minutes and all repairs will aim to be completed in less than 6 hours to get you up and running on the roadside.

Over 90 years' of experience ensures we carry out all services with only genuine parts of a minimum OEM standard. And each of our staff members has complete and ongoing training, including for EV compliance.

Our commitment to our customers:

All our customers are back on the road as quickly as possible, with the target vehicle diagnosis completed within 2 hours of breakdown. If resulting repairs take under an hour to complete, they will be completed then and there, while you wait.
